

Dear Community,

The Alvarado ISD Education foundation was established to support the scholars and educators within Alvarado ISD. We strive to enhance the learning environment and provide opportunities for all scholars in our district.

We can only do this through generous support from those in our community. We believe we are blessed with a wonderful community who believes in one another and shares our passion.

With your support we would be able to provide the following:

- Scholarships for graduating seniors
- Innovative grants for educators
- Annual academic recognition banquet

We would be thrilled to partner with you to help provide these things for Alvarado ISD.

Enclosed you will find more information regarding our sponsorship packages and the benefits they offer. Should you have any additional questions please feel free to contact us.

Sincerely,

Alvarado ISD Education Foundation
